Museum Mission

The primary objectives of the **National Multicultural Western Heritage Museum** is to offer the visitor a true and *complete historical perspective* of the people and activities that built the unique culture of *The American West*. The work of artists who documented the people and events of the time, journals, photographs and other historical items are part of this new collection of long overlooked materials that tell, perhaps for the first time, the complete story. *The American West* of today still operates on many of the principles and cultural relationships begun so long ago. We hope that our visitors will share in the enjoyment of a **new vision** and leave with awareness that today's West came into being through the struggles and triumphs of diversity.

Hall of Fame

The Hall of Fame was founded to give recognition to the outstanding pioneers who contributed to the settling of the early American western frontier as well as acknowledge individuals who continue to be trailblazers, continuing the legacy of western culture. The Hall of Fame tells the stories and presents excellent examples of American heroes of the past, present and future.
